Thompson was a Burgler, But no one would tell that tale, all of the White and Colored people of this City knew him from selling Clothes Police while of duty from the W.P.A. He didn't have any police record, had been working on the project since it was The City relief. Also worked for the Weinberg Bahana Co. for years I do know that they have the law here to arrest people if they have comitted a crime. But not to kill a man in Cold blood, like a dog, as David Marks did. But I am hopeing that you all, in any way may take it up and See that something is done about it, I will highly appicate it. And I think that thing like this you ought to know. I am sending This paper you can read for you Self. Many Thanks. Hoping to hear from you all.

Clarence was my only Brother and Suppord.
