

Oct-9-
NYC

Dear Sir -

As an American, I am deeply shocked by the complete inaction of you and your department in relation to recent events in Mississippi. - Any contention that you can't act because of "jurisdiction" points up all the more that color makes a big difference in what you do about citizens' rights to vote, kidnapping and even murder. I even hesitate to address this card to dept. of justice - what justice can be expected from your department?

A Voter -
